

运 行 证 明 Operation Certification

特高压交流 1000kV 皖南变电站位于安徽省，经纬度为东经 114°54' ~ 119°37'，北纬 29°41' ~ 34°38'，站内雨量充沛，年降雨量 773 ~ 1670mm。

UHV AC Wannan Substation is located in Anhui Province, East longitude 114°54' ~ 119°37', north latitude 29°41' ~ 34°38'. Abundant rainfall, the annual rainfall is between 773 ~ 1670mm.

淮南-上海 1000KV 特高压交流输电示范工程皖南变电站，站内 HGIS 采用了江苏神马电力股份有限公司产品，工程供货清单如下表所示：

Huainan Shanghai 1000KV UHV AC transmission demonstration project, Wannan substation. The HGIS in the substation are used SHEMAR products. The details of the supply of insulators are as under:

应用设备 Applied device	产品类型 Specification	电压等级 Voltage	数量 Quantity
HGIS	空心复合绝缘子 Composite hollow insulator	1000kV	15
合计 Total			15

2013年9月，该变电站投入试运行，至今为止，未对复合绝缘子进行任何维护工作，包括但不限于清洗、清扫和喷涂防污闪涂料等，所有复合产品运行状态良好。

In September 2013, the substation was put into operation, so far, no maintenance work has been done on the composite insulators, including but not limited to cleaning and spraying of anti-fouling paint, all composite products running in good condition.
